PROFESSIONAL EXPERIENCE

Teaching Assistant, Visualization Analytics Course, Pamplin College of Business, Virginia, USA **Aug'2026 - Present**

- Managing the course website and providing support to 25+ students for Power BI, Microsoft Fabric and Copilot related queries
- Developed and integrated a 24/7 AI agent using Hokie AI Platform to automate student query resolution and optimize course operations

Marketing Data Analyst Intern, CRM Migration, Guidon Designs, Indianapolis, Onsite, USA **May' 2026 - Aug' 2026**

- Analysed CRM data across 50+ Access tables to identify data inconsistencies and data-flow issues across business segments.
- Developed a data-migration framework mapping Unanet, Access, and Deltek Vantagepoint fields to improve data consistency and reporting.
- Built a Power BI dashboard to track revenue, leads, and opportunity win/loss trends across market segments.
- Automated RFP information extraction and task creation using Power Automate and AI, saving consultants 4 hours per RFP.

Data Engineer Intern, **Global Data Analytics**, Kellogg's (now Kellanova) **Jun' 2023 - Sept' 2023**

- Built an AWS data pipeline using Glue, EventBridge, and S3 to transform raw data into Parquet, improving query performance and reducing storage costs.
- Loaded processed data into Apache Hudi and Redshift and developed SQL stored procedures to track historical changes across 4+ regions.
- Automated infrastructure deployment using AWS CloudFormation and GitHub Actions CI/CD, improving deployment consistency across development and testing environments.

Data Scientist Intern, Credit Analytics Innovation, HDFC Bank **Apr' 2023 - Jun' 2023**

- Analysed 2M+ financial transactions using Python, Pandas, NumPy, and SQL to refine debt-calculation logic and improve customer pre-qualification criteria.
- Built an NLP-based text-mining pipeline using n-grams and regex to automate keyword identification, reducing manual classification workload by 40%.
- Analysed competitor KYC and lending strategies and presented Power BI insights to 3+ cross-functional teams to inform customer-segment targeting.

Senior Analyst/ Consultant, LTI (now LTIMindtree) **Aug' 2019 – May' 2022**

- Analyzed 20,000+ CRM incident records and data flows across 120+ e-forms, identifying data inconsistencies, missing fields and process issues, collaborated with stakeholders on root-cause analysis, reducing reported incidents by 50% over a 6 months period
- Developed and automated SQL based weekly dashboards and reports tracking e-forms filing activities and regional approval trends, providing operational insights to 15+ senior stakeholders
- Led the end-to-end development of a new e-form, translating business requirements into functional specifications, database schemas, and approval workflows while coordinating ABAP development, QA, testing and production deployment
- •Partnered with clients and cross-functional teams to resolve SLA-bound SAP CRM issues using SQL and ABAP, improve data quality, evaluate process enhancements, and mentor 2 junior analysts while managing complex escalations.

TECHNICAL PROJECTS & VOLUNTEERING

LLM-Based Sarcasm Detection for Code-Switched Social Media Text **Mar' 2026 - May' 2026**

- Compared zero-shot LLM prompting with transfer learning using multilingual models ((MuRIL, XLM-RoBERTa, LLaMA-4)) to classify sarcasm in code-switched text.
- Evaluated model performance and analyzed classification errors to assess the strengths and limitations of each approach.

Admin Team Data Analyst Volunteer, American Red Cross, US **Aug' 2025 - Feb' 2026**

- Managed large administrative datasets and Power BI dashboards, maintaining data integrity and delivering real-time operational insights to 6+ teams.

SKILLS

- **Data Science & Analytics:** AWS (Glue, Athena, Lambda, Redshift, Step Functions), Azure ML, CI/CD, Power BI, Tableau
- **Business Tools:** SAP CRM, Requirement Gathering, Stakeholder Collaboration, Process Documentation & Optimization

EDUCATION

MEng in Computer Science & Applications, Data Analytics & AI, Virginia Tech, USA (CGPA: 4/4) **Jan'2026 – Dec'2027**

- Machine Learning, Natural Language Processing, AI tools for Software Engineering, Introduction to AI, Introduction to Deep Learning

Masters in Big Data Analytics, Goa Institute of Management**,** India **Jun' 2022 – April' 2024**

Bachelor of Engineering in Information Technology, University of Mumbai, India (3.23/4) **Aug' 2015 – May' 2019**

CERTIFICATES

AWS Certified Cloud Practitioner, CLF-CO2, AWS Certification **Aug' 2025**

Data Science Bootcamp, Springboard, US, Data Science Certification **Oct' 2024 - Jun' 2025**

Microsoft Power BI Data Analyst, PL-300, Microsoft Certification **Sept' 2024**
